You can't resist. A strong breeze is blowin' and the office is just not where you want to be.

Fast. Responsive. Accelerating on the wind, she beats out past the light.

Day's end brings you home. Wing and wing she glides silently through the moorings. The spicy aroma of hot cider drifts up the companionway.

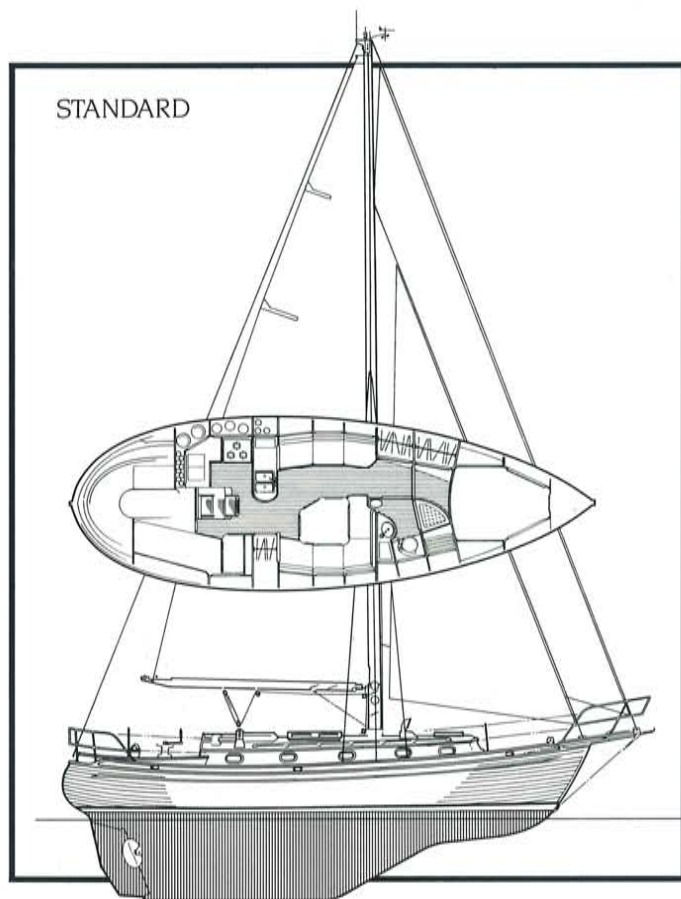

Night on the mooring becomes a quiet time to plan next year's long passage south.

A yacht sensibly designed and carefully built will take you beyond summer's end.

TASHIBA 36

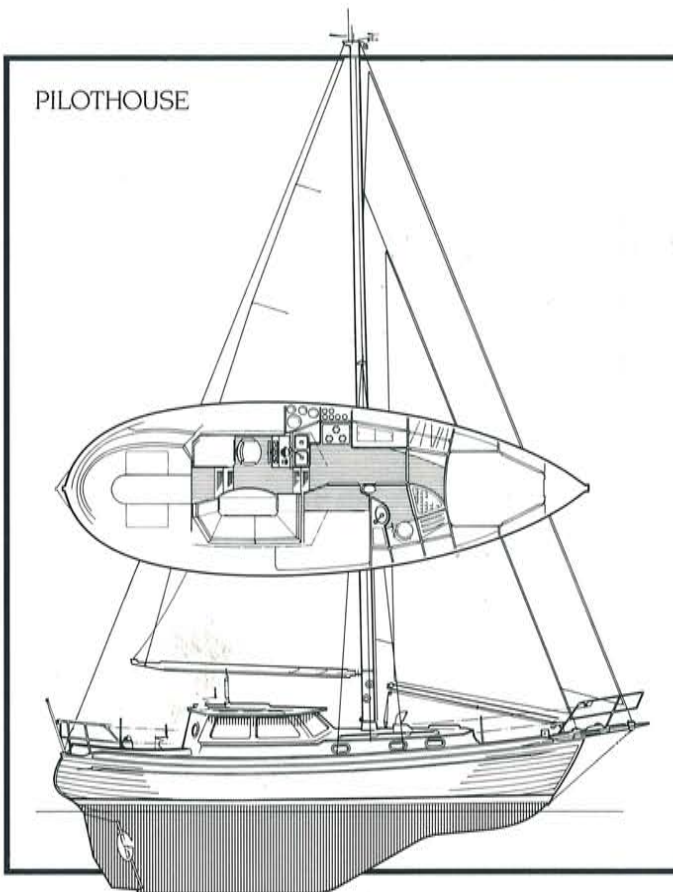

STANDARD

The standard model provides a large owner's stateroom forward and a quarterberth aft (with an optional second stateroom aft also available). The teak interior is finished with a satin varnish while the cabin sole is of varnished teak and holly. A hot and cold pressure water system with a shower in the head area is included. A Yanmar 4JHE 44 h.p. diesel is standard.

PILOTHOUSE

The pilot house comes equipped with an inside steering station as well as pedestal steering from the cockpit. The windows are fabricated from 10mm. tempered glass (with optional storm shutters also available). The pilothouse features two large staterooms, one forward and the other amidships.
